PROFILE

I am a passionate Computer Science student specializing in Artificial Intelligence and Machine Learning (AIML), currently pursuing my B.Tech. Over the course of my academic journey, I have worked on various innovative projects and obtained multiple certifications that have enhanced my skills and knowledge in the field. In addition to my academic and professional pursuits, I am an avid football player and enjoy engaging in content writing. These activities have helped me develop a well-rounded skill set, combining technical expertise with creativity and teamwork. I am dedicated to exploring new technologies and applying my expertise to solve real-world problems. With a solid foundation in AIML, I am eager to contribute to impactful projects and continue growing as a professional in this dynamic domain.
